FIG. 7

FIG. 8 is a sequence diagram illustrating a process flow involving a REQUESTING ENTITY, WEBSITE, PROFILE SERVICE PROVIDER, and PROFILE SUBJECT/PROFILE OWNER.

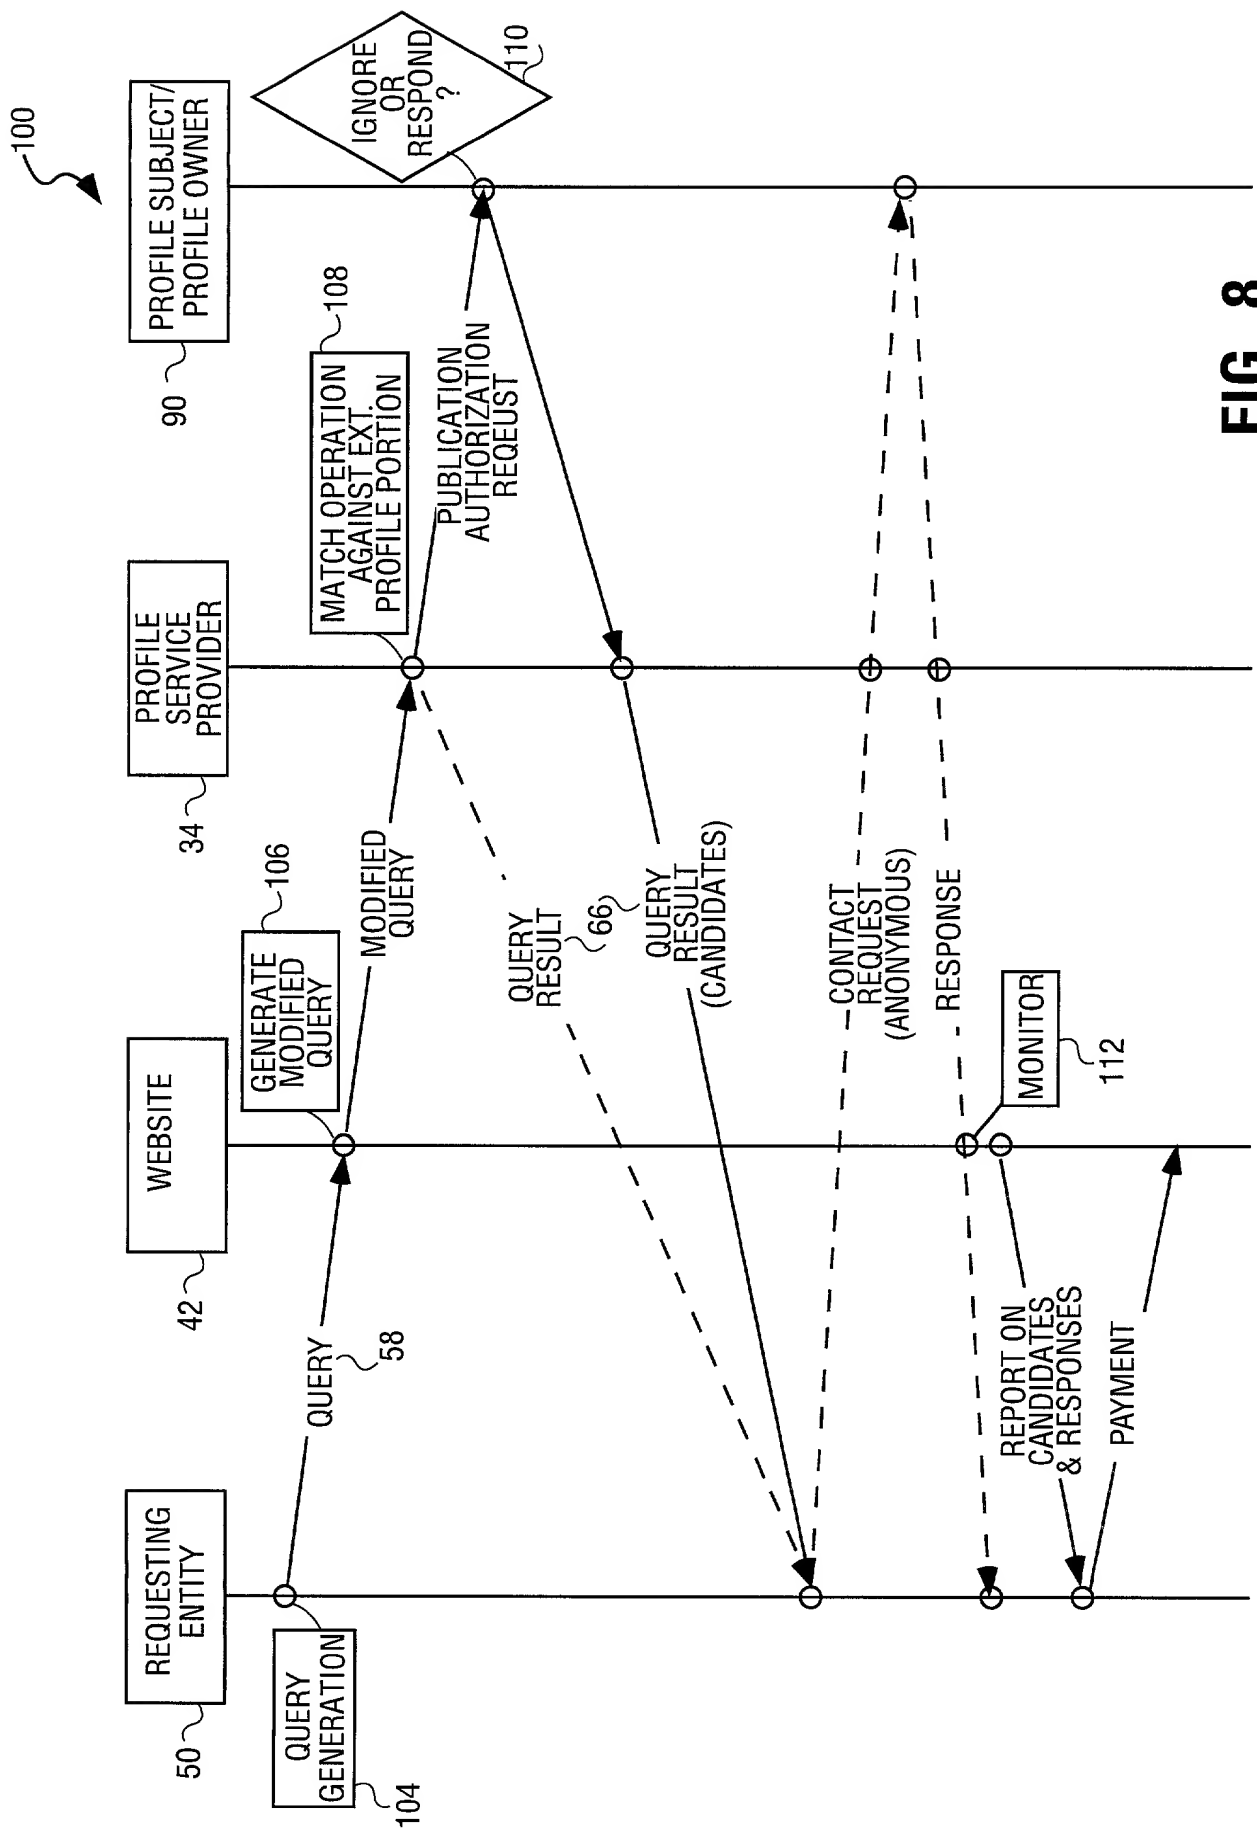

FIG. 8

FIG. 9 is a sequence diagram illustrating a process for matching a profile subject to a specific website. The process involves a Requesting Entity (50), a Website (42), a Profile Service Provider (34), and a Profile Subject (90). The Requesting Entity generates a query (104) against the Website's customer-base. The Website sends an authorization request to the Profile Service Provider. The Profile Service Provider performs a match operation (114) against the Website's specific external profile public and private portions. The Profile Service Provider sends an authorization request to the Profile Subject. The Profile Subject responds to the authorization request. The Profile Service Provider sends a query result (66) to the Website, which includes hits on public profiles and hits on private profiles. The Website sends a contact request (anonymous) to the Profile Subject. The Profile Subject responds to the contact request. The Website sends a report on candidates and responses to the Requesting Entity. The Requesting Entity sends a payment to the Website. The Website monitors the process (112).
